

Blueprint Mentoring Services

OVERVIEW

Blueprint's Professional Services offerings are designed to ensure the successful implementation and adoption of Blueprint Requirements Center into customers businesses. Experience has shown that companies that proactively drive product adoption through a coordinated strategy of training, mentoring and consulting services experience the greatest benefit and business value from their software investments. The overall goal is to help our customers maximize the return on their Blueprint investment while minimizing business interruption and risk.

Blueprint's trainers and consultants are Requirements experts with extensive Requirements Center experience and detailed knowledge of Requirements and SDLC processes, tools and best practices. Using Blueprint Professional Services expertise ensures appropriate focus on efficient Requirements Center use and best practices and provides a sustained post-training hands-on involvement to mitigate project risk and maximize adoption.

BLUEPRINT MENTORING SERVICES

Blueprint Mentoring Services are designed to provide on-the-job training and knowledge transfer by working in the customer's lab on the customer's project with an experienced Blueprint expert. Mentoring is conducted as a supplement to Requirements Center product training (not in lieu of product training), and is typically done at the customer site in a small group setting. Mentoring typically involves one Blueprint consultant on site working with the customer for 1-3 weeks, depending on the customer's needs and requirements.

SOLUTION HIGHLIGHTS

The Mentor will lead a range of activities that may include:

- Ensure proper installation of Blueprint software including the License Server and Team Repository
- Review of proposed project(s) and existing requirements documentation and provide recommendations for Project, Model and Repository structure.
- Tailor and deliver a Getting Started Guide, tailored to the project team.
- Review requirements models (one-on-one or in groups) and provide comments on requirements content and utilization of Requirements Center capabilities.
- Provide guidance on using UI Mockups, Data and best practices on Requirements Simulation.

Blueprint Mentoring Services

SCOPE

The goal of Blueprint Mentoring Services is to accelerate internal skills development and shorten the learning curve for Blueprint adoption. Beyond formal training, the Blueprint mentor will educate customer personnel in the use of Requirements Center and other Blueprint products.

Blueprint Mentoring Services can be provided either on-site or remotely via web conferencing sessions to best meet customer objectives.

Contact your Blueprint sales team for more information or to engage Blueprint Professional Services.

SOLUTION HIGHLIGHTS CONTINUED

- Assist with Word document template mapping and template initiation.
- Provide guidance on Requirements Center Test Generation capabilities, best practices and integration with HP Quality Center.
- Provide overview of Blueprint Team Repository functionality (Sharing, Editing, Publishing, History, Team Notifier, etc.)
- Recommend Best Practices for the project team based on mutually established standards and guidelines.
